

## **Spokesman for DPRK Foreign Ministry Rejects Anti-DPRK "Resolution"**

Pyongyang, March 30 (KCNA) -- A spokesman for the DPRK Ministry of Foreign Affairs gave the following answer to the question raised by KCNA on Monday as regards the adoption of an anti-DPRK "resolution" at a meeting of the UN Human Rights Council:

Another anti-DPRK "resolution" peppered with lies and fabrications was adopted at the 10th meeting of the UN Human Rights Council as what happened last year.

This is a product of the plot being hatched by the EU and Japan each year to achieve a sinister political aim.

The West is taking much pain to maintain the outdated, biased and confrontation-minded special rapporteur system in a bid to continue behaving as if it were a "judge" even in the newly-organized UN Human Rights Council.

Japan is acting as ever a shock brigade in kicking up the anti-DPRK human rights racket in an effort to cover up its hideous human rights abuses committed against the Korean nation in the past.

The DPRK, as it did in the past, resolutely and categorically rejects such "resolution" cooked up by the charlatans keen to selectively pull up those countries antagonized by their master, while keeping mum about his human rights abuses in Iraq and Afghanistan.

Human rights precisely mean the sovereignty of a country.

It is a daydream to do harm to the DPRK's sovereignty through plot-breeding and pressure.
