

## **Korean Youth, Children Denounce Lee Myung Bak Regime's Malignant Outbursts**

Pyongyang, June 5 (KCNA) -- The Kim Il Sung Socialist Youth League and the Korean Children's Union issued on Tuesday a joint statement denouncing the Lee Myung Bak group of traitors for letting loose a spate of invectives about the celebrations of the union through its paid trumpeters.

The statement says:

There are many countries and children on our planet, but there is no such country as the DPRK where children enjoy all blessings as its king.

The most splendid celebrations of the 66th anniversary of the union can be called another legend about love as they are fruition of the warm loving care the dear respected Kim Jong Un has shown by carrying forward the noble outlook on the younger generation and future of President Kim Il Sung and leader Kim Jong Il who embraced all the children and bestowed all sorts of care and solicitude upon them.

But the Lee Myung Bak group set in motion its paid trumpeters to launch a smear campaign over the events.

What enrages the Korean people is that the group malignantly hurt the dignity of the supreme leadership of the DPRK, likening it to Nazi tyrant of Germany.

This is an intolerable provocative act of hurting the dignity of the supreme leadership of the DPRK which its people regard as more valuable than their own lives and an unbearable insult and mockery of the Korean school youth and children who have grown with nothing to desire more in the world under the care of the peerlessly great persons of Mt. Paektu.

The Lee group, as fellow countrymen do, should have hailed the celebrations envied and admired by the world. But the group ran the whole gamut of vituperation against the celebrations to hurt the pure mind of the Korean children. This was an act against humanity and a reckless act of treachery.

The Korean school youth and children's resentment and hatred against the group are running high.

The school youth and children in the DPRK are ardently calling on the Korean People's Army to deal heavy blows in revenge upon the despicable provocateurs as early as possible as already declared in the open ultimatum.

They will also turn out as human bullets and bombs in the do-or-die sacred battles for punishing the provocateurs.

All the servicepersons and people in the DPRK will clearly show how they will take revenge on the Lee Myung Bak group that hurt the dignity of its supreme leadership and insulted the school youth and children.

The group of traitors will not be able to escape the most miserable punishment unless it makes apology for the hideous provocations.
