

Japanese Authorities Warned of Inciting Pressure and Sanctions on DPRK: Foreign Ministry Spokesman

Pyongyang, May 30 (KCNA) -- A spokesman for the DPRK Foreign Ministry released the following statement on Monday:

The DPRK's measures for bolstering nuclear force are a legitimate exercise of the right to self-defence by a sovereign state to put an end to the escalating moves of the U.S. for a nuclear war and firmly guarantee peace and stability in the Korean peninsula and the region.

But, Japan is branding the measures for self-defence as "threat" and "provocation".

The chief executive of Japan reeled off a litany of balderdashes about the strict implementation of "sanctions resolutions" and the necessity of adopting a new resolution during the G-7 Summit recently held in Italy, claiming that now is the time to put pressure on the DPRK, not have dialogue with it. The chief Cabinet secretary, the foreign minister and other ministers of Japan vied with each other in vociferating about an additional "independent sanctions" against the DPRK.

Japan incites pressure and sanctions against the DPRK here and there. It is aimed at providing a legal justification to push ahead with its militarization by cooking up a fascist law at any cost under the pretext of "threat" from the DPRK.

Now voices are loudly ringing from among the people and political circle in Japan against the moves of right-wing forces to revise its "Pacifist Constitution" into a war constitution so as to turn Japan into a war state and put the whole country under watch and fascistize it under the signboard of "measures against terrorism".

It is an extremely foolish act that the Japanese authorities are running amuck to realize the wild ambition for revival of militarism and reinvasion while branding the DPRK's measures for self-defence as "provocation" and "threat".

The DPRK does never pardon but keeps tabs on new crimes committed by Japan while taking an issue with even the DPRK's exercise of sovereignty, far from repenting of all its past hideous crimes against the Korean people.

As already declared, the DPRK will make more highly precision and diversified nukes and nuclear striking means till the U.S. and its vassal forces come to their senses and make a proper choice.

Only the U.S. military objects for aggression in Japan have been within the optical sight of the Strategic Force of the Korean People's Army. But if Japan persists in hostility toward the DPRK, following the U.S. and not properly seeing the reality, the target of the DPRK will be changed.

DPRK Foreign Ministry Spokesman Refutes G-7 Summit Joint Statement

Pyongyang, May 30 (KCNA) -- A spokesman for the Foreign Ministry of the DPRK gave the following answer to a question raised by KCNA Tuesday over the fact that the U.S. and the hostile forces made public a joint statement faulting the DPRK at the G-7 summit:

At the summit held in Sicily of Italy on May 26-27, the U.S. and its followers made public a joint statement slandering the DPRK.

It is those seven nations which carried out most of the nuclear and missile tests that have been and who render regional situation extremely tense through competitive sales of war means like attack missiles to south Korea.

Yet, they are urging the DPRK to scrap its nuclear deterrence meant for self-defence of the country. This is like a guilty party filing the suit first.

The G-7 summit is a place where those nuclear- and missile-haves put their heads together to discuss how to pressure weak countries and those incurring their displeasure.

The U.S. and its followers are seriously mistaken if they think they can deprive the DPRK of its nuclear deterrence, the nation's life and dignity, through sanctions and pressure.

The increased sanctions and pressure will compel the DPRK to further step up its moves for diversifying and modernizing its nuclear force.
